

## FIRST QUARTER MEETING – 2022

Date: 10 February 2022

Venue: Online

Time: 1.40pm – 3.30pm

MC: Nigel Brunel – Head of Commodities, Jarden

### Agenda

#### Agenda

1.25pm **Webinar broadcasting**

1.40pm Introduction, welcome from the MC  
**Nigel Brunel** – *Head of Commodities, Jarden*

1.45pm **New Zealand ETS Auctions update**

Auctioning is a new feature in the New Zealand Emissions Trading Scheme (ETS) introduced in 2021. NZX-EEX operates the NZ ETS Auctions and in this presentation, Shane Dinnan from NZX will cover:

- Performance to date of the NZ ETS Auctions
- Potential auction design enhancements

**Shane Dinnan** – *Head of Energy Markets, NZX*

2.05pm **Market Update | Electricity spot market, hydro, demand, supply and prices**  
**Alice Beau** – *Energy Analyst, NZX*

2.13pm **Market Update | Gas Market**  
**Cathy Lawless** – *Senior Commodity Markets Analyst, emsTradePoint*

2.21pm **Energy mandates and when to use them: The biogas example**

To decarbonise gas quickly and securely, what policies do we need? In this session Rosie Collins (Sense Partners) will discuss the biogas opportunity and whether a mandate is necessary. How would complementary policies fit with the ETS? And what might mandate policies mean for traders?

**Rosie Collins** – *Economist, Sense Partners*

2.41pm **Market Update | Futures – electricity**  
**Chris Pugh** – *Product Development & Sales, ASX*

2.49pm **Market Update | Electricity Authority**  
**Joey Au** – *Chief Strategy Officer, EA*

2.57pm **OTC Hedge Market Update**  
**Greg Sise** – *Managing Director, Energy Link*

3.05pm **Christchurch Airport's bold plans for energy security**  
Christchurch Airport's new Kōwhai Park energy hub is a platform for creating a range of green energies to futureproof the fuel requirements of the airport and airlines that use it. The first stage of the park is a 150-megawatt solar array supported by Australian investment partner Solar Bay, aiming for first generation by 2025.  
With a host of interested developers in New Zealand and overseas, proximity to electricity networks and future aviation fuel needs (electricity and green hydrogen), there is no shortage of opportunities for the park.  
**Nick Flack** – *General Manager, Planning & Sustainability, Christchurch International Airport*

3.20pm **Wrap up and thank you**

## SPEAKER BIOS

### Rosie Collins

Rosie Collins is a Wellington-based economist with Sense Partners, a boutique economics consultancy. She previously worked with the International Energy Agency in Paris during her master's programme at the University of Cambridge and she has a deep interest in climate and energy policy. In 2021, she worked on the CGE modelling for the government's Sustainable Biofuels Mandate. She is also a regular writer on social and economic issues in media outlets like the Spinoff and Stuff.

### Nick Flack

Nick Flack is the General Manager Planning and Sustainability and has been a member of the Christchurch Airport team since July 2013. His expertise focuses on planning, development and maintaining nationally significant infrastructure solutions that have positive economic, social and environmental solutions. Prior to Christchurch Airport, Nick developed significant experience in operations, asset management and long-term capital development at Lyttelton Port Company and CentrePort Wellington.
